

First Vice President Report

Spring 2018

During a recent conference call, it was discovered that the Disaster Plan states:

- The First Vice President will check on a random schedule to see if Back up files for operating areas are being kept current and report results at the Fall Board Mtg.

This should be added to the Job Description.

Also, the Disaster Plan has not been updated since President Keisling's term in office. Office holders and Committee chairs in Appendix A are out of date, and Appendix B is mostly blank.

This document should be updated on some regular basis.

Respectfully submitted,

Jody Nolin
