

## **AIS RESEARCH LIBRARY STANDING COMMITTEE REPORT**

**Spring 2019**

The normal quantity of Regional, Section, Local Bulletins and Newsletters have been received, recorded and filed.

The library has been able to provide answers to several requests for assistance for information, reports, etc.

The library was favored by a visit from the Board of Directors during their meeting, November 2018. In preparation for the visit a cabinet was filled showing many, but not all, of the medals and awards won and received by Ben Hager.

Thanks go to the A.I.S. Foundation for their generous grant toward the purchase of new filing cabinets.

Additional thanks go to Will Plotner for his donation of lumber and labor installing shelving above the area now serving as a work table.

The digitizing of the Larry Harder slide file collection has been completed. Following up that digitizing a collection of 29 loose leaf binders from the Carol and Carla Lankow collection has been forwarded to Janet Smith.

There is a rather large quantity of excess Bulletins and R&I that is occupying usable space. A decision from the BOD is requested as to their disposition. I have set aside the older Bulletins (30s, 40s, & 50s) as many of them are in mint condition.

Respectfully submitted

Dave Silverberg  
Librarian
