AIS Exhibitions Committee Report – Part I, Schedules

Fall 2019

The number of approved shows continues to slowly, but steadily decline. I approved 126 show in 2019, including three fall rebloom shows. That is a decline of 6 from 132 shows in 2018 and a decline of 29 since I started in this position in 2010.

The process is largely electronic. Most schedules are submitted for review via e-mail, which means I can generally send back the initial approval via e-mail with the electronic Show Supplies Order Form and Show Report Form attached. I still follow up with a snail-mailed approval packet which includes the printed show certificates. And there are still 5-6 shows per year for which the entire process is conducted via the US Postal Service.

Respectfully submitted,

Lois Rose
