2021 Photo Contest Report

The 2021 photo contest ended at midnight, August 1, 2021. Congratulations to all our first and second place winners, and those who received an honorable mention. We had entries from Belgium, New Zealand and Italy, as well as USA. There were a total of 33 adult participants and 165 photos. No youth entries were received.

The judges were Dawn Boyer, Earnie Royal and Steve Speights, and the results were compiled on August 11, 2021. An email has been sent congratulating each winner, runner up and honorable mention for their achievement, and non-winners have been notified as well. Contest results and photos have also been sent to the AIS Webmaster and AIS Editor for publishing in the bulletin.

With no convention again this year, I am especially grateful to Rick Tasco, Terry Aitken, Hooker Nichols and Bob Van Liere for contributing 2021 introduction rhizomes to the winners. All rhizome awards have been shipped to the winners and runner ups, and a letter has been sent to the Membership Secretary to coordinate membership awards for first place winners.

Thank you to the judges, hybridizers, contestants and all who contributed to making the 2021 contest a success.

Respectfully submitted,

Susan Driver
Photo Contest Coordinator
