

## AIS Exhibitions Committee Report – Part I, Schedules

Fall 2021

**Note: Information only**

I approved a total for 49 spring shows for 2021 as opposed to 97 approved in 2020. Obviously COVID-19 concerns continue to have an impact. However, many more shows were actually held as compared to the previous year, when only two shows were actually held. (See Wayne Messer's report.) I mailed very few approval packets, since everyone had saved their printed materials from last year's cancelled shows. For those packets I did mail, I printed the certificates myself as needed, so Exhibitions Schedules expenses will be negligible for the year.

I anticipate receiving at least one request for approval for a fall show, as Region 4 is planning a rebloom show for its Fall Regional Meeting.

I received an approval request for one virtual show, proposed by the Mt. Diablo Iris Society, which was not approved since AIS has no rules and regulations for virtual shows.

Respectfully submitted,

Lois Rose
