AIS Registrar-Recorder Report

November 2, 2021

Registrar-Recorder Janis Shackelford

After a couple of hiccups, I have sort of mastered FileMarkerPro, but I am still learning it. John Jones has saved me so far, and Neil Houghton has offered to help me if I require assistance in the future. Keith Keppel does the final proofing of the registrations for me.

To date in 2021 there have been 795 registrations and 151 reserves, with a current backlog of entering 251 reserves and/or registrations.

Since I took over the Registrar-Recorder on September 1, 2021, AIS has received \$4390 in foreign registrations and reserves (minus PayPal's fee), and I have processed \$1680 in North American registrations and reserves. I cannot tell what AIS has received before. I currently have over \$1300 in checks from North America which I will give to the secretary.

When I finish the backlog of reserves/registrations, I will start on recording the introductions for this year. John sent a box of catalogs and I have also received foreign catalogs by email. Mike Reed has asked when I will provide him with the completed 2021 Introductions and I should be finished in mid-December.

Respectfully submitted,

Janis Shackelford
AIS Registrar/Recorder
