

Publications Committee Report
May 2006

The Publications Committee is pleased to report that a full work plan has been put under way. At its inception, the plan was that one or two new publications would be available each year. For 2006, we present the Eric Nies Chronicles which we propose to make available to AIS members through the Storefront on demand at a price of \$20 (estimated costs are \$15). Twenty copies have been produced to meet the anticipated initial demand.

For 2007, we anticipate that the design supplement (Carolyn Hawkins) will be available and for 2008/09, the much anticipated hybridizers' manual (Terry Aitken). Over the next year, the Publication Committee will initiate plans for two or three more supplements.

At this time, we ask that the board approve the publication of the Eric Nies Chronicles to be sold through the AIS Storefront at \$20 each.

Respectfully submitted,

Maureen Mark, Chair
Terry Aitkens
Betty Roberts
