

CONVENTION LIAISON REPORT

May 15, 2010

1. I am still looking for a site to host the 2013 convention. I have one site that is thinking about it but, I have not received an invitation yet. Beardless plants would need to be received in Fall of 2010. If this site takes it, it would not have a great number of gardens, probably just 4 or less. This site is not in the Eastern part of the country but, at this time, I would take any part of the country.
2. I have also started working on future conventions that will be more of an educational convention with possibly 1 or 2 gardens and maybe a shorter convention length.
3. I have started working on expanding my committee so that my committee can assist sites with the convention working in positions that do not require a local person.
4. I continue to ask the chairpersons of the AIS conventions to strive to get the registration and meeting information to The AIS Editor and the AIS Web Page Master as early as possible, so that the membership can have the information to make plans to attend the convention.

Paul W. Gossett
AIS Director, Convention Liaison
