

Fall 2011 Affiliate Liaison Report

This has been another quiet season.

Affiliates mailing group –

Very little activity over the summer months.

The group was used to:

- Announce the 2012 AIS Calendar,
- Promote the publication of the new R&I, and
- Announce the electronic memberships.

Affiliate forum –

There has not been enough activity to keep the forum going.

.

Tool kit items –

Happily, I have had a couple of phone calls about starting up new clubs. It would be a good idea to post something on the members page such as a checklist of things to do to get a club up and running officially.

There is the very helpful by-laws example for a start.

I will be working with Susan in her capacity as Affiliation chair to come up with something more.

More that the board would like to have done?

.

Ideas for more activates would be most welcome.

Respectfully submitted,
Jody Nolin
