

Judges Handbook Revision Committee May/June 2011
By Jim Morris

The Judges Handbook Revision Committee has been selected to provide a mix of members from all Sections and Cooperating Societies. There may be a couple more appointments yet this year.

The existing Judges' Handbook has been OCR scanned to provide a starting point for any revisions to be recommended to the AIS Board of Directors. This was done because no database was found in Dr. Epperson's personal or college records.

As chairman I have received two inquiries or suggestions for handbook changes. This has not been pursued yet as the emphasis to date was assembling the committee.

If the AIS Board has any recommendations as to goals or guidelines I would appreciate receiving same in writing. Thank you.
