## **Committee for Electronic Services — John Jones Chmn.**

### **Online Subscription Service**

The online membership subscription service using PayPal continues to work well.

### **Digital Projector**

The digital projector continues to be used throughout the year. Everyone that has used it has been very complimentary on its ease of use and how great it is to be able to view digital pictures. We needed to replace the video extension cable.

### **AIS Website ([irises.org](http://irises.org)) / E-memberships**

After the startup problems were solved the service seems to be working. It is often impacted by the wiki being on the same host server. Performance problems on the wiki are locking up eMember services. We need to move the wiki to its own server.

### **Membership Lookup**

The Membership lookup site is fully operational and is updated directly by the AIS Membership Secretary as needed.

### **Bulletin Scanning**

The Bulletin scanning project is complete. All the scanned documents are available online as part of eMember services. A complete set is also available at the AIS Library. The Board needs to decide:

1. Whether the AIS library may make electronic copies of individual bulletins, or subsections thereof for non-AIS eMembers and non-AIS members.
2. What other libraries should receive copies of the complete set and under what terms of disclosure they need to agree.
