

Image Coordinator
Fall 2014
Janet Smith

Since the hybridizers are sending their photos directly to Robert Pries for the wiki my job is very easy – nothing to do.

Since I am digitizing slide collections I have been sending them to Terry Laurin who Robert recommended to work with them and place on the wiki. To date over 8,000 photos have been sent. I am currently working on the John Weiler collection and as those categories are completed I send them to Terry. I still have 4 other collections to scan after this.

I continue to assist the AIS Editor with her photo needs and anyone else who may request a photo.
