AIS Speaker's Program Report
2014 Fall Meeting, Salt Lake City, UT

Submitted by: Gordon Carver,

The current program was accessed three times prior to the 2014 show year. No contacts for 2015, yet.

My intentions to update the program have not wavered; however, Life has brought unexpected challenges to our goals. With our gardens not on the convention tours, and other personal events not pressing, updates should be completed as we move into 2015.

My ultimate desire is to get information back thru the RVPs from potential speakers in their regions, and return info back to the RVPs regarding availability of desired speakers for their region from wherever. Judges available to provide in-region and/or out-of-region judge's training sessions will be highlighted. Draft of questionnaire for new (and currently listed speakers) is in-work. Finally, provide advertizing copy for *IRISES*, and related Section publications.
