

Donations Development Report

This committee has not met. I am hoping to get at least 2 members from the Foundation to serve on the committee with me. I will be writing an article for the July/August issue of *IRISES* regarding donations. I think it is important to remind our members of the different types of donations open to them, and to distinguish a donation from a bequest.

Doing a little research, I have found out that 7 out of 10 people do not write a will in their lifetime, which means that they have no say in how their assets are spent after they die. I hope the article will encourage AIS members to think about making a bequest to AIS. More later.

Sincerely,

Cheryl Deaton, Chairman DDC
