

**Image Coordinator  
Spring 2014  
Janet Smith**

Information continues to be sent out to the hybridizers registering their iris.

Few hybridizer introductions have been received. I have placed a short article in the April Bulletin explaining the acceptance of just a close up of the iris and other photos later as they have time. Hoping that might generate some cooperation.

I don't know why most of the hybridizers will not answer my emails requesting photo submissions. Any suggestions would be helpful.

Note: Never have problems with Schreiners, Mid-America, Suttons, Superstition, Niswonger.

Respectfully,  
Janet Smith, Coordinator
