

Program Speakers Report-Spring 2014

Gordon Carver, Chair

Telephone: (817) 304-3841

2013 was a slow year for speaker requests. However, it has allowed for opportunities to tidy up the process and update the prospective current speakers' files reflecting new topics, changes in travel restrictions.

This year the focus will be working the Speaker Program database; sending out (primarily thru email) interest sheets to current (to update) speakers and also new judges. There are many non-judges who present great programs but, had not been included in the database. RVPs will be requested to submit potential candidates to the Program Chair for inclusion. We need an array of talent available to us to provide the best programs and training to our affiliate societies.

Respectfully,

Gordon Carver
