

Image Coordinator
Fall 2015
Janet Smith

Since the hybridizers are sending their photos directly to Robert Pries for the wiki my job is very easy – nothing to do.

Since I am digitizing slide collections I have been sending them to Terry Laurin who Robert recommended to work with them and place on the wiki. To date over 14,000 photos have been sent.

I am currently working on the Barry Blyth slide collection.

Thanks to Rita Butler, we now have Leo T. Clark and Herbert Kerr 1950's and 1960's slide collection. I will be sharing these with the Aril Society since most of the photos are of Arils.

When finished with a collection all slides are sent to the AIS Ben Hager and Sid Dubois Library as requested by Dave Silverberg.
