

**Image Coordinator  
Spring 2015  
Janet Smith**

Very Few hybridizer introduction photos have been received.

Now the project for scanning slide collections has been a great success and more slides are coming in.

Terry Laurin has this to say to the question of how this has helped the Iris Encyclopedia:

“It has been more than a benefit. It has been a bonus!!! Many of the slides you have sent we had only a few images and many none at all. Most of the images that I have uploaded since I started this project have been from websites and most sites only list recent introductions so any chance to upload images from older intros has been great.

Again Janet, I can't thank you enough for the contribution you have made to making the WIKI the place to go for iris information.”

Slide Collections Scanned Since 2011:

Bee Warburton	2200	Paul Black	3100
Rosaliee Figge	2100	<u>John Weiler</u>	<u>2800</u>
Lloyd Zurbrigg	275	TOTAL	10,475

Waiting to be scanned (approx numbers):

Barry Blyth	2500	John Wright	2300
Smaller collections	900	<u>TOTAL</u>	<u>5,700</u>

In conversation with Schreinners for their slide collection to be scanned and returned.

Now because of this I have submitted a request for a more proficient slide scanner to Dave Silverberg who will discuss our needs.

Respectfully,  
Janet Smith, Coordinator
