

## Motion Request #2

That the Nominations Committee of the American Iris Society be directed to recruit potential Board Members actively employed in the following professions: 1) Banking, 2) Fund Raising.

### Explanation

The Banking industry has many rules and requirements, particularly in opening accounts and making changes to authorized signers on accounts. The Board (as well as AIS) would be well-served to have this type of expertise which it does not currently have. This individual could advise and assist the officers in interfacing with banks and other financial institutions.

Similarly, the Board has a need for a person knowledgeable in developing fundraising campaigns and to seek grants for both operational and one-time needs.

Both individuals, if located, nominated and approved would be expected to function as any other Board Member in addition to the special expertise.

### Implementation

This motion, if approved, would cause the Nominations Committee to begin the recruiting search by July 2016 and report at the Fall 2016 Board Meeting on the progress made.
